

Fitzgerald C.O.P. member finds a ghastly site at the Johnson Station Cemetery.

Early Sunday morning on June 10th, 2007, C.O.P. member Bonnie Bilodeau was patrolling in the area of the Johnson Station Cemetery. As she approached the Mayfield side of the cemetery, she drove upon an unfortunate site. It appeared that an unknown vehicle had driven through the fence of the property and damaged several tombstones within the cemetery.

Bonnie then called 911 to report the incident. Arlington Police Officers responded to the scene. Bonnie then left to allow the Officers to begin their investigation. Once she was out of the area, she noticed a vehicle that appeared to be abandoned in an empty lot. The vehicle had front end damage, two flat tires and the top wire of a chain link fence hanging from the rear end.

Bonnie again called the Arlington Police Department who alerted the investigating Officers at the cemetery of her findings. After investigation, the suspect driver was located. The care takers of the cemetery were also advised and wrote a kind thank you letter to Bonnie.

The actions of C.O.P. member Bonnie Bilodeau continue to have a strong reflection of what citizens can accomplish when we all look out for each other and the areas of our communities.
