

What is COP Mobile?

The C.O.P. Mobile Program presents yet another opportunity for Arlington residents to partner with the Police Department and join the effort to make our communities even safer. COP Mobile members patrol areas within their policing district with the use of a City owned vehicle.

The COP Mobile program is designed to reduce property crimes such as auto and residential burglaries by directing strategic patrols to areas in need of a visible presence. These vehicles are not designed in any way to resemble a police patrol car yet give a clear indication that the driver is trained to contact Police immediately if they view suspicious activity, a crime in progress or even a medical emergency.

Upon successful completion of the 12hr Citizens On Patrol course, members can submit interest to join the COP Mobile Field Training Program. Arlingtons Finest volunteers will spend a total of 24 logged hours teaching you how to patrol safely and effectively as a trained observer.

Join Our Team and Make a Positive Impact On This Great City!
